participants

This study will begin with 40 practice trials. On each practice trial, like each trial in the main experiment, you will see two big squares appear on the screen.

Press space to continue.

participants

You will then see four white circles flash
shortly thereafter, and you can ignore this
flash as it has no behavioral relevance to
the task.

Press space to continue or "B" to go
back.

participants

When the little square appears, you will have one second to indicate whether it was on the left or right of the screen by pressing, respectively, the "A" or "L" keys. If there is no little square on the screen, you do not have to press any key. Please gaze at the cross in the center of the screen the whole time and detect the little square with your peripheral vision. Finally, please stay in the head mount during throughout the experiment.

Press space to continue or "B" to go back.
